

BAY DELTA CONSERVATION PLAN EIR/EIS

PUBLIC SCOPING MEETINGS

YOU ARE INVITED to attend an Environmental Impact Report/Environmental Impact Statement (EIR/EIS) scoping meeting to provide input to the environmental review of the Bay Delta Conservation Plan (BDCP). Lead agencies for the EIR/EIS are the California Department of Water Resources, the Bureau of Reclamation, the U.S. Fish and Wildlife Service, and NOAA's National Marine Fisheries Service, in cooperation with the California Department of Fish and Game, the U.S. Environmental Protection Agency and the U.S. Army Corps of Engineers. The meeting is designed to solicit comments from the public, agencies and Tribes that will assist the lead agencies in focusing the content and analytical methods for the EIR/EIS, identify issues of concern, potential alternatives, and sources of information. The meeting will also provide an opportunity to discuss the status of the BDCP. The open house format will allow you to visit individual issue-focused stations and recorder stations to submit your comments. You may also take a comment form home and mail in your comments before May 14, 2009. The open house format allows you to attend at your convenience during the allotted meeting times.

MEETING DATES AND LOCATIONS

***Libraries with copies of BDCP Information are indicated below – please contact the individual library for hours.
